Test Step : Roles landing page search is verified

The screenshot shows the 'Roles' landing page. At the top, there is a search bar with the text 'Automation'. Below the search bar, a table displays one role entry:

Role Name	Description	Status
Automation	For Automation Purpose	Active

At the bottom right of the page, there are navigation icons for back, forward, and search.

Test Step : Roles edit search is verified

The screenshot shows the 'Edit Role' page for the 'Automation' role. The 'Status' is set to 'Active'. On the left, there is a sidebar with 'Associated Users' and a 'Menu Access' section. The 'Menu Access' section contains a table with various system modules and their access counts:

Module	Read	Write	Disabled
Entity	1	286	609
Workflow	1	282	8
Request	2	0	0
Task	0	1	0
Document Manager	1	0	0
Knowledge Graph	0	0	15
Widgets	0	129	241
Dashboard	0	13	118
Report	81	32	36
Administrator	4	36	0

Test Step : Navigated to School Admission form successfully

The screenshot shows the 'School Admission form' table view. The table has columns for 'Kid's name', 'Kid's DOB', 'Kid's Board of school', and 'Kid's age'. The data is as follows:

Kid's name	Kid's DOB	Kid's Board of school	Kid's age
Deva	2017-09-01	Matriculation	13
Prabhu	2011-05-24	Anglo Indian	9
Siva	2017-09-01	CBSE	3
Geetha	2015-02-18	Matriculation	5
Vijay	2006-02-15	Anglo Indian	14
Meera	2013-05-17	CBSE	7
Vignesh	2011-09-09	Matriculation	9
Priya	2005-09-15	CBSE	15
Linga	2006-05-19	Matriculation	14

Test Step : Clicked on Logout Link

The screenshot shows the nflows application interface with a sidebar and a main content area. A message at the top indicates that the user is about to log out.

Test Step : Roles landing page search is verified

The screenshot shows the nFlows Roles landing page. A search bar at the top right contains the text "Automation". Below the search bar, a table lists one role: "Automation". The table columns are "Role Name" (Automation), "Description" (For Automation Purpose), and "Status" (Active). At the bottom right of the page, there is a navigation bar with icons for back, forward, and search.

Test Step : Roles edit search is verified

The screenshot shows the nFlows Roles edit page for the role "Automation". The search bar at the top right contains the text "Automation". The main area displays a table of access rules. The "Menu Access" tab is selected. The table includes columns for "Filter by" (Entity, Workflow, Request, Task, Document Manager, Knowledge Graph, Widgets, Dashboard, Report, Administrator), "Read" (count), "Write" (count), and "Disabled" (count). The "Entity" row shows 1 Read, 286 Write, and 609 Disabled records.

Test Step : Dropdown selected for single rule

The screenshot shows the nFlows Roles edit page for the role "Automation". The search bar at the top right contains the text "Automation". The main area displays a table of access rules. The "Data Access" tab is selected. The table includes columns for "Menu" (School Admission form), "Read Access" (Get records based on board school), "Write Access" (Select), and "Status" (Active). A dropdown menu for "Read Access" is open, showing options: "Get records based on board school" (selected) and "Get records based on age".

Test Step : Navigated to School Admission form successfully

The screenshot shows the nFlows School Admission form page. The page title is "School Admission form". It displays a table with columns for "Name", "Age", "Gender", and "Board School". There are two rows of data: "John Doe" (Age 12, Male, Board School 1) and "Jane Doe" (Age 13, Female, Board School 2).

Test Step : Clicked on Logout Link

The screenshot shows the nflows application interface. On the left, there is a search bar and a table titled "School Admission form" with columns: Kid's name, Kid's DOB, Kid's Board of school, and Kid's age. The table contains three rows: Siva (DOB 2017-09-01, CBSE), Meera (DOB 2013-05-17, CBSE), and Priya (DOB 2005-09-15, CBSE). On the right, there is a sidebar with a user profile for "Dharma" (User Id: Dharma) showing version 1.0.282, last login on 2020-12-14 at 04:59 PM, and days for password expiry: 903. The sidebar also includes links for My Account, My Preference, Change Password, Services Status, and Logout.

Test Step : Login with User name - Dharma

The screenshot shows the nflows login page. It has fields for "User Name" (containing "Dharma") and "Password". Below the password field is a "Login" button. At the bottom left is a "Forgot password?" link. To the right of the login form is a decorative graphic featuring a central figure of a person working on a computer, surrounded by icons representing various platform features: Business Rules Engine, Automation & Workflow, Configurable Reporting & Dashboards, Document Manager, Dynamic Business Data Modeler, and A Business Solutions Platform.

Test Step : Navigated to Roles successfully

The screenshot shows the nflows Roles management page. It lists roles with their descriptions and status. The roles listed are: AML Governance, Abendor, Acendor, Admin, Aeendor, Afendor, Agendor, Aiendor, Ajendor, Akendor, Amendor, Analytics role, and Anendor. All roles are marked as "Active". The "Status" column contains green "Active" buttons. The "Description" column provides a brief explanation for each role. At the bottom right, there are navigation buttons for page 1 of 2.

Role Name	Description	Status
AML Governance	Testing for BB	Active
Abendor	For the purpose of external vendors	Active
Acendor	For the purpose of external vendors	Active
Admin	Admin Role	Active
Aeendor	For the purpose of external vendors	Active
Afendor	For the purpose of external vendors	Active
Agendor	For the purpose of external vendors	Active
Aiendor	For the purpose of external vendors	Active
Ajendor	For the purpose of external vendors	Active
Akendor	For the purpose of external vendors	Active
Amendor	For the purpose of external vendors	Active
Analytics role	For the purpose of external vendors	Active
Anendor	For the purpose of external vendors	Active

Test Step : Roles Landing Page Verified

Role Name	Description	Status
AML Governance	Testing for BB	Active
Abendor	For the purpose of external vendors	Active
Acendor	For the purpose of external vendors	Active

Amendor	For the purpose of external vendors	Active
Analytics role	For the purpose of external vendors	Active
Anendor	For the purpose of external vendors	Active

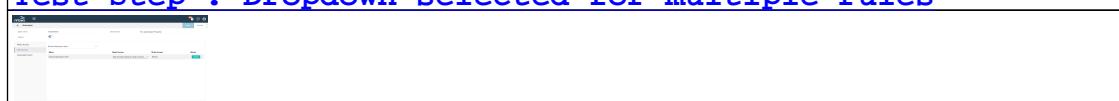

Test Step : Roles landing page search is verified

Role Name	Description	Status
Automation	For Automation Purpose	Active

Test Step : Roles edit search is verified

The screenshot shows the 'Edit' view for the 'Automation' role. The role name is 'Automation'. The status is set to 'Active'. The 'Status' toggle switch is turned on. The 'Description' field contains 'For Automation Purpose'. The 'Associated Users' section is collapsed. The 'Menu Access' section is expanded, showing a list of entities and their access counts: Entity (Read 1, Write 286, Disabled 609), Workflow (Read 1, Write 282, Disabled 8), Request (Read 7, Write 0, Disabled 0), Task (Read 0, Write 1, Disabled 0), Document Manager (Read 1, Write 0, Disabled 0), Knowledge Graph (Read 0, Write 0, Disabled 15), Widgets (Read 0, Write 125, Disabled 241), Dashboard (Read 0, Write 43, Disabled 119), Report (Read 81, Write 12, Disabled 36), and Administrator (Read 4, Write 36, Disabled 0). Buttons for 'Save' and 'Cancel' are visible at the top right.

Test Step : Dropdown selected for multiple rules

Test Step : Navigated to School Admission form successfully

The screenshot shows the nFlows application interface. At the top, there is a navigation bar with the nFlows logo, a search icon, and a user icon. Below the navigation bar is a header with tabs: "School Admission form" (selected), "Request", and "Document Manager". A sub-header "Entity Request Document Manager" is also present. A search bar with placeholder text "Search..." and three checkboxes ("Include document content", "Search across all fields") is located above a table. The table has columns: "Kid's name", "Kid's DOB", "Kid's Board of school", and "Kid's age". The data in the table is as follows:

Kid's name	Kid's DOB	Kid's Board of school	Kid's age
Prabhu	2011-05-24	Anglo Indian	9
Siva	2017-09-01	CBSE	3
Geetha	2015-02-18	Matriculation	5
Meera	2013-05-17	CBSE	7
Vignesh	2011-09-09	Matriculation	9
Priya	2005-09-15	CBSE	15

At the bottom right of the table area, there are navigation icons for back, forward, and search.

Test Step : Clicked on Logout Link

This screenshot shows the same nFlows application interface as the previous one, but with a user profile sidebar on the right. The sidebar includes a user icon, the name "Dharma", and the user ID "User Id: Dharma". It also displays system information: "Version: 1.0.282", "Last login: 2020-12-14 05:01 PM", and "Days for password expiry: 903". On the far right of the sidebar, there is a "Logout" link. The main content area is identical to the first screenshot, showing the list of school admissions.

Test Step : Login with User name - Dharma

This screenshot shows the nFlows login page. The page features a logo at the top left and a large central graphic in the background. The graphic depicts a woman sitting at a computer, with various icons around her representing different platform features: "Dynamic Business Data Modeler", "Business Rules Engine", "Automation & Workflow", "Configurable Reporting & Dashboards", and "Document Manager". A banner at the bottom of the graphic reads "A Business Solutions Platform". The login form itself has a "Login" button and a "Forgot password?" link. The user input fields are currently empty.

Test Step : Navigated to Roles successfully

Role Name	Description	Status

Anendor	For the purpose of external vendors	Active

Test Step : Roles landing page search is verified

Role Name	Description	Status
Automation	For Automation Purpose	Active

Test Step : Roles edit search is verified

Test Step : Dropdown selected for single rule

The screenshot shows the 'Automation' role configuration in nflows. The 'Data Access' tab is selected. A table lists 'School Admission form' under 'Menu'. For 'Read Access', it is set to 'Select'. For 'Write Access', there is a dropdown menu with options: 'Get records based on board school' (selected), 'Get records based on age', and 'Get records based on gender'. The 'Status' column shows 'Active'.

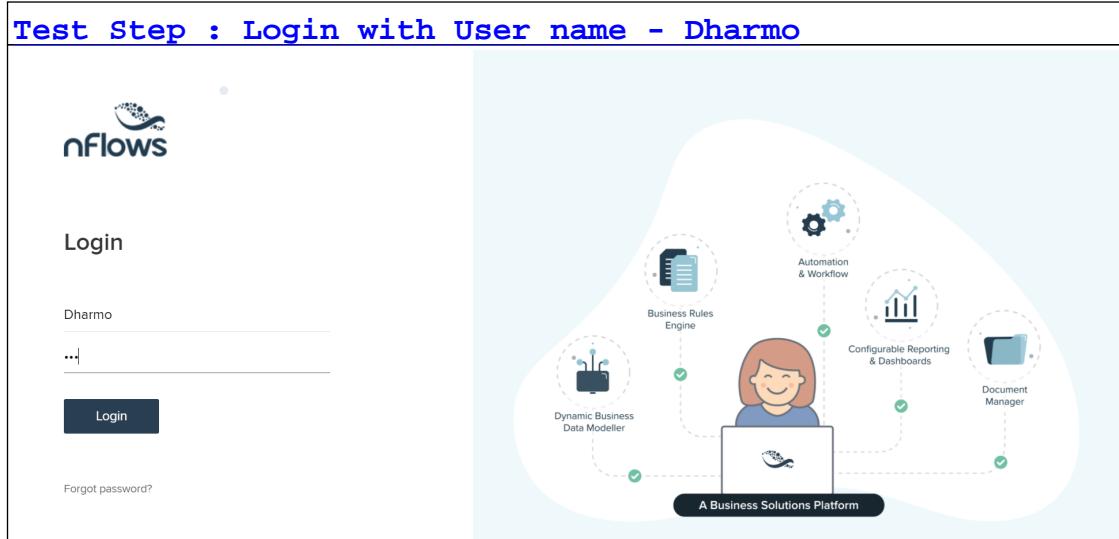

Test Step : Navigated to School Admission form successfully

The screenshot shows the 'School Admission form' list view. The table includes columns for 'Kid's name', 'Kid's DOB', 'Kid's Board of school', and 'Kid's age'. The data shows three entries: Siva (DOB 2017-09-01, CBSE, 3), Meera (DOB 2013-05-17, CBSE, 7), and Priya (DOB 2005-09-15, CBSE, 15).

Test Step : Clicked on Logout Link

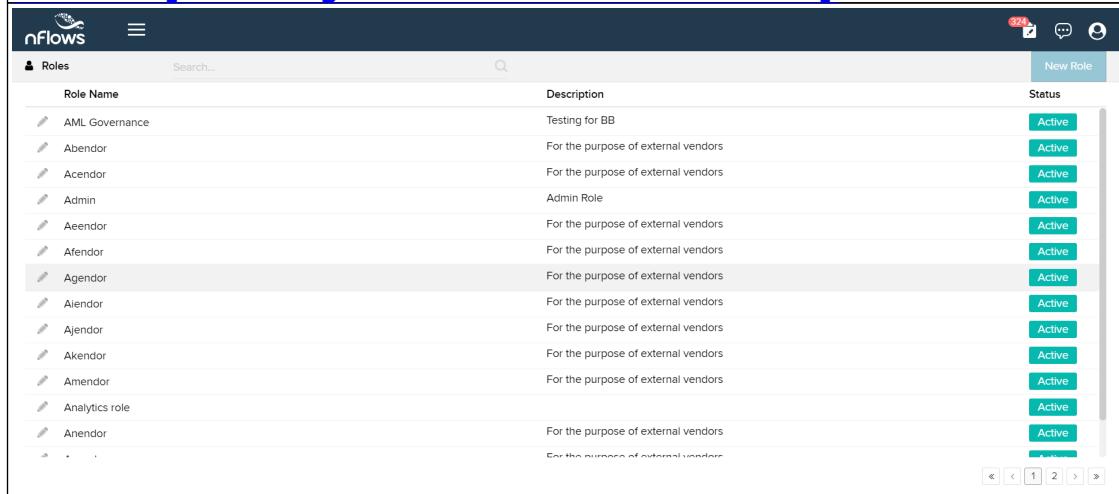

The screenshot shows the 'School Admission form' list view after logging out. The right sidebar displays a user profile for 'Dharma' (User Id: Dharma) with version information (1.0.282), login history (Last login: 2020-12-14 05:03 PM), and password details (Days for password expiry: 903). The sidebar also includes links for 'My Account', 'My Preference', 'Change Password', 'Services Status', and 'Logout'.

Test Step : Login with User name - Dharmo

The screenshot shows the nflows login interface. At the top left is the nflows logo. Below it is a "Login" section with a text input field containing "Dharmo". To the right of the input field is a large circular graphic titled "A Business Solutions Platform". Inside the circle are several icons representing different software modules: "Dynamic Business Data Modeler", "Business Rules Engine", "Automation & Workflow", "Configurable Reporting & Dashboards", and "Document Manager". A central figure of a woman at a computer is surrounded by these modules. Below the input field is a "Forgot password?" link and a "Login" button.

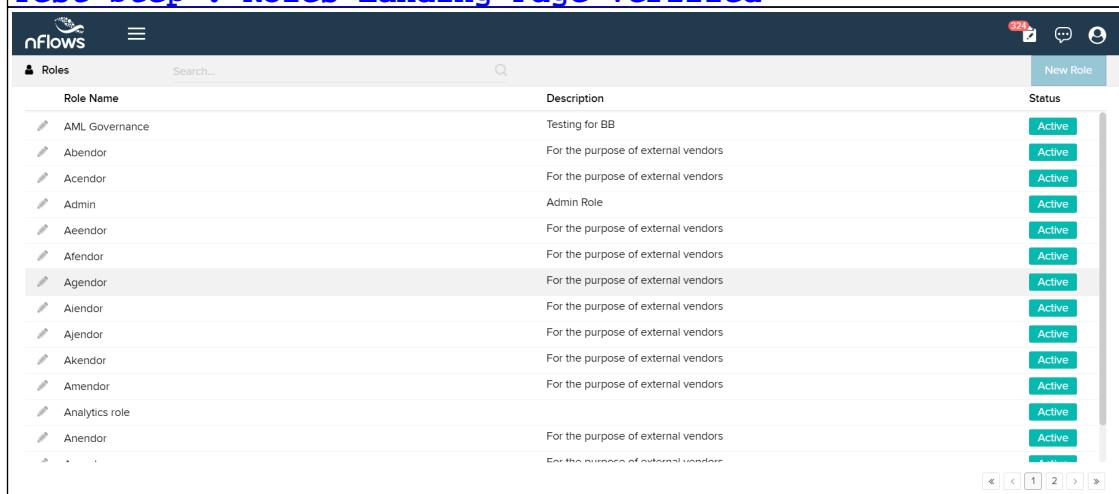

Test Step : Navigated to Roles successfully

The screenshot shows the nflows Roles landing page. The header includes the nflows logo and a "New Role" button. The main content is a table with columns: "Role Name", "Description", and "Status". The table lists various roles, all of which are marked as "Active". The "Role Name" column includes entries like "AML Governance", "Abendor", "Acendor", "Admin", etc. The "Description" column provides a brief description for each role, such as "Testing for BB" or "For the purpose of external vendors". The "Status" column shows a green "Active" button for each row. At the bottom right of the table are navigation buttons for pagination.

Role Name	Description	Status
AML Governance	Testing for BB	Active
Abendor	For the purpose of external vendors	Active
Acendor	For the purpose of external vendors	Active
Admin	Admin Role	Active
Aeendor	For the purpose of external vendors	Active
Afendor	For the purpose of external vendors	Active
Agendor	For the purpose of external vendors	Active
Aiendor	For the purpose of external vendors	Active
Ajendor	For the purpose of external vendors	Active
Akendor	For the purpose of external vendors	Active
Amendor	For the purpose of external vendors	Active
Analytics role	For the purpose of external vendors	Active
Anendor	For the purpose of external vendors	Active

Test Step : Roles Landing Page Verified

This screenshot is identical to the one above, showing the nflows Roles landing page. It displays the same table of roles, all marked as "Active". The "Role Name" column includes "AML Governance", "Abendor", "Acendor", "Admin", etc. The "Description" column provides descriptions like "Testing for BB" or "For the purpose of external vendors". The "Status" column shows "Active" for all rows. Navigation buttons are visible at the bottom right.

Test Step : Roles landing page search is verified

The screenshot shows the nflows Roles landing page with a search bar at the top. The search term "Admin" has been entered. Below the search bar, the table of roles is displayed, with the "Admin" role highlighted in the "Role Name" column. This indicates that the search function is working correctly, returning the expected results.

Test Step : Roles edit search is verified

The screenshot shows the 'nflows' application interface for managing roles. The main title is 'Test Step : Roles edit search is verified'. The top navigation bar includes the 'nflows' logo, a three-dot menu, and several status indicators. Below the header, there's a breadcrumb trail 'Automation' and a save/cancel button. The main content area has tabs for 'Role name', 'Automation', 'Description', and 'For Automation Purpose'. The 'Data Access' tab is currently active, showing a table with columns for 'Entity', 'Read', 'Write', and 'Disabled' counts. A sidebar on the left lists 'Menu Access', 'Data Access', and 'Associated Users'. A search bar at the top of the table allows filtering by entity.

Test Step : Dropdown selected for multiple rules

This screenshot shows the 'nflows' application interface for managing roles. The title is 'Test Step : Dropdown selected for multiple rules'. The top navigation and save/cancel buttons are present. The 'Data Access' tab is selected, showing a table for the 'School Admission form' entity. The table includes columns for 'Menu', 'Read Access', 'Write Access', and 'Status'. A dropdown menu under 'Read Access' is set to 'Select', and a tooltip indicates it gets records based on board school. The 'Status' column shows 'Active'.

Test Step : Navigated to School Admission form successfully

This screenshot shows the 'nflows' application interface for managing school admission forms. The title is 'Test Step : Navigated to School Admission form successfully'. The top navigation bar and a 'New School Admission form' button are visible. The main content is a table titled 'School Admission form' with columns for 'Kid's name', 'Kid's DOB', 'Kid's Board of school', and 'Kid's age'. The table lists six entries: Prabhu (2011-05-24, Anglo Indian, 9), Siva (2017-09-01, CBSE, 3), Geetha (2015-02-18, Matriculation, 5), Meera (2013-05-17, CBSE, 7), Vignesh (2011-09-09, Matriculation, 9), and Priya (2005-09-15, CBSE, 15). The table includes standard data grid controls at the bottom.

Test Step : Clicked on Logout Link

The screenshot shows the nFlows School Admission form interface. On the right side, there is a sidebar for the user 'Dharma' (User Id: Dharma). The sidebar includes information such as Version: 1.0.282, Last login: 2020-12-14 05:05 PM, and Days for password expiry: 903. It also contains links for My Account, My Preference, Change Password, Services Status, and Logout.

Test Step : Login with User name - Dharma

The screenshot shows the nFlows login page. A user has entered 'Dharma' into the username field. Below the login button, there is a link for 'Forgot password?'

Test Step : Navigated to Roles successfully

The screenshot shows the nFlows Roles landing page. The table lists various roles with their descriptions and status. Most roles are marked as 'Active'. The 'Agendor' role is currently selected.

Role Name	Description	Status
AML Governance	Testing for BB	Active
Abendor	For the purpose of external vendors	Active
Acendor	For the purpose of external vendors	Active
Admin	Admin Role	Active
Aeendor	For the purpose of external vendors	Active
Afendor	For the purpose of external vendors	Active
Agendor	For the purpose of external vendors	Active
Alendor	For the purpose of external vendors	Active
Ajendor	For the purpose of external vendors	Active
Akendor	For the purpose of external vendors	Active
Amendor	For the purpose of external vendors	Active
Analytics role	For the purpose of external vendors	Active
Anendor	For the purpose of external vendors	Active

Test Step : Roles Landing Page Verified

The screenshot shows the nFlows Roles landing page, identical to the one in the previous step, confirming that the landing page has been verified.

Test Step : Roles landing page search is verified

The screenshot shows the nflows Roles landing page. A search bar at the top right contains the text "Automation". Below the search bar is a table with columns: Role Name, Description, and Status. One row in the table is highlighted, showing "Automation" in the Role Name column, "For Automation Purpose" in the Description column, and "Active" in the Status column. At the bottom right of the page, there is a navigation bar with icons for back, forward, and search.

Test Step : Roles edit search is verified

The screenshot shows the nflows Roles edit page for a role named "Automation". The "Role name" field is populated with "Automation". The "Description" field contains "For Automation Purpose". The "Status" toggle switch is turned on. On the left, there is a sidebar with sections for "Menu Access", "Data Access", and "Associated Users". The "Data Access" section is expanded, showing a table with rows for various entities like Entity, Workflow, Request, Task, etc., each with Read, Write, and Disabled counts. A search bar is present in the Data Access section. At the top right, there are "Save" and "Cancel" buttons.

Test Step : Dropdown selected for single rule

The screenshot shows the nflows Roles edit page for a role named "Automation". The "Role name" field is populated with "Automation". The "Description" field contains "For Automation Purpose". The "Status" toggle switch is turned on. On the left, there is a sidebar with sections for "Menu Access", "Data Access", and "Associated Users". The "Data Access" section is expanded, showing a table with rows for various entities like Entity, Workflow, Request, Task, etc., each with Read, Write, and Disabled counts. A search bar is present in the Data Access section. In the main content area, there is a table with columns: Menu, Read Access, Write Access, and Status. One row in the table is highlighted, showing "School Admission form" in the Menu column, "Get records based on board school" in the Read Access column, "Get records based on board school" in the Write Access column, and "Active" in the Status column. A dropdown menu is open next to the Write Access field, showing options like "Get records based on board school" and "Get records based on age". At the top right, there are "Save" and "Cancel" buttons.

Test Step : Navigated to School Admission form successfully

The screenshot shows the nflows application interface. At the top, there is a navigation bar with the nflows logo, a search icon, and a user icon. Below the navigation bar, the title "School Admission form" is displayed. A search bar with placeholder text "Search..." and three checkboxes ("Include document content", "Search across all fields") is present. To the right of the search bar are icons for "New School Admission form", "Upload", "Print", and "More". The main content area is a table with columns: "Kid's name", "Kid's DOB", "Kid's Board of school", and "Kid's age". The table contains three rows of data:

Kid's name	Kid's DOB	Kid's Board of school	Kid's age
Siva	2017-09-01	CBSE	3
Meera	2013-05-17	CBSE	7
Priya	2005-09-15	CBSE	15

At the bottom right of the table are navigation arrows.

Test Step : Clicked on Logout Link

This screenshot shows the same nflows application interface as the previous one, but with a user profile sidebar on the right. The sidebar includes a user icon, the name "Dharma", and the user ID "User Id: Dharma". It also displays system information: "Version: 1.0.282", "Last login: 2020-12-14 05:06 PM", and "Days for password expiry: 903". On the far right of the sidebar is a "Logout" link. The main content area is identical to the first screenshot, showing the School Admission form search results.

Test Step : Login with User name - Dharma

The screenshot shows the nflows login page. The header features the nflows logo. The main form has a "Login" heading, a "User Name" field containing "Dharma", a "Password" field with a redacted password, and a "Login" button. Below the form is a "Forgot password?" link. To the right of the login form is a large, semi-transparent graphic titled "A Business Solutions Platform". This graphic features a central figure of a woman with a laptop, surrounded by five circular icons connected by dashed lines: "Dynamic Business Data Modeler" (with a database icon), "Business Rules Engine" (with a gear icon), "Automation & Workflow" (with a chart icon), "Configurable Reporting & Dashboards" (with a bar chart icon), and "Document Manager" (with a document icon). The entire graphic is set against a light blue background.

Test Step : Navigated to Roles successfully

The screenshot shows the nflows application interface again. The title "School Admission form" is visible at the top. The main content area displays a grid of roles or categories, with the first few rows showing "Admission", "Attendance", "Class Management", and "Student Management". The interface includes standard navigation elements like back, forward, and search buttons.

Test Step : Roles Landing Page Verified

Test Step : Dropdown selected for multiple rules

The screenshot shows the 'Automation' role configuration in the nflows platform. The 'Role name' is 'Automation'. The 'Status' is set to 'Active'. Under 'Data Access', the 'Associated Users' section is expanded, showing a table for 'School Admission form'. The table has columns: 'Menu', 'Read Access', 'Write Access', and 'Status'. A single row is present with the value 'School Admission form' in all columns.

Test Step : Navigated to School Admission form successfully

The screenshot shows the 'School Admission form' search results page. The search results table includes columns: 'Kid's name', 'Kid's DOB', 'Kid's Board of school', and 'Kid's age'. The results are as follows:

Kid's name	Kid's DOB	Kid's Board of school	Kid's age
Prabhu	2011-05-24	Anglo Indian	9
Siva	2017-09-01	CBSE	3
Geetha	2015-02-18	Matriculation	5
Meera	2013-05-17	CBSE	7
Vignesh	2011-09-09	Matriculation	9
Priya	2005-09-15	CBSE	15

Test Step : Clicked on Logout Link

The screenshot shows the 'School Admission form' search results page with a user profile sidebar on the right. The sidebar displays the user 'Dharma' (User Id: Dharma) with a profile icon. It also shows system information: Version 1.0.282, Last login: 2020-12-14 05:08 PM, and Days for password expiry: 903. Below the sidebar are links for 'My Account', 'My Preference', 'Change Password', 'Services Status', and 'Logout'.
